

120kWh Lead-acid Battery Cabinet for Highway Use

Overview

The 120kWh battery uses advanced lithium iron phosphate (LFP) technology, combining high energy density with strong stability. It supports top lifting and is forklift-friendly at the bottom. EverExceed VRL A battery assembly cabinets are very durable, and easy to install. The complete all-in-one design provides you with ultimate safety and convenience. The 120kWh battery uses. EverExceed is the ISO9001 & ISO14001 certified factories and verified by SGS, TUV, BV, ETL institutes including industrial charger, UPS, Data center solution, lithium battery, lead-acid battery, NiCd battery, solar module, inverter, solar street light system, charger, as well as Security cameras. The battery cabinet is designed with an open integration architecture, allowing flexible compatibility with various local and international PCS or. This Battery Storage System provides reliable backup and solar storage. You can use this system in homes, commercial buildings, EV charging stations, and. The cabinets covered by the technical specification have been designed to contain the hermetic lead-acid electric accumulator batteries.
