

Black Mountain Battery Energy Storage System

Overview

Leveraging cumulative decades of electric market experience, Black Mountain Energy Storage develops powerful, flexible, and strategically placed battery energy storage projects to foster a resilient electric grid. Our sites are strategically positioned in challenged areas to support grid. The newly acquired BESS will be built in two phases in Eastern Oklahoma to support multiple data centres already operational or in development in the area. Image: GridStor Developer-operator GridStor has acquired a 200MW/800MWh in-development battery energy storage system (BESS) project in. The Apache Hill project offers Vitis a unique opportunity to expedite its time to market via an advanced development project located at an advantaged position within the ERCOT system. " (BMES) is proud to announce the successful closure of the Apache Hill project with Vitis Energy on July 24th.
