

Mbabane environmental sustainability

Overview

Mbabane – A new chapter in sustainable urban development has begun in the capital city as the government launched the Inter-Ministerial Pocket Park and Riverine Ecosystem Restoration Project, signalling Mbabane's transition into a greener, more resilient city centre. This comprehensive Voluntary Local Review (VLR) report presents an extensive analysis of the city's progress toward achieving the United Nations Sustainable Development Goals (SDGs) at the local level. The city has embarked on various green initiatives focusing on conservation, eco-friendly practices, waste management, and sustainable. The festival brought together young people from across the country to explore how creativity can inspire innovation, sustainability and positive environmental action. At our interactive stall, learners put their creativity into practice by transforming everyday materials into useful items. This inspiring initiative is set to restore nature, reduce flooding, and create a.
