

Photovoltaic JA Solar Panel 380W

Overview

The 380W JA solar panel is a monocrystalline PERC module, ideal for self-consumption and industrial solar installations that want to obtain maximum power per square metre. JA Solar offers a high efficiency module with PERC cells, which thanks to its half-cell configuration offers high power output, better temperature coefficient, lower efficiency. Sweet Spot for Efficiency and Cost: 380W panels offer 20-25% efficiency ratings while maintaining competitive pricing at \$0. 68 per watt, making them ideal for maximizing energy production without premium costs associated with 400W+ panels. Space Optimization Champion: With power density of. All you need to know about the JAM72S09 -380/PR solar panel including rating, cost, efficiency, and warranty terms. The Ja Solar 380w Datasheet is a key document that provides a comprehensive overview of this powerful and popular solar panel. This datasheet is your essential guide to the performance, features, and capabilities of the Ja Solar 380W model, empowering informed decisions for your solar projects.
