

# Solar battery cabinet lithium battery pack of liquid-cooled energy storage cabinet system

## Overview

This 125kW all-in-one liquid-cooled solar energy storage system integrates high-performance lithium batteries, inverter, and energy management into a single unit, ensuring stable operation and optimal thermal performance. Besides, as a battery storage cabinet with a maximum energy efficiency of up to 91%, the product ensures a reliable power supply for different C&I energy. Ranging from 208kWh to 418kWh, each BESS cabinet features liquid cooling for precise temperature control, integrated fire protection, modular BMS architecture, and long-lifespan lithium iron phosphate (LFP) cells. Designed for safety, efficiency, and fast deployment, these plug-and-play systems are. Thanks to its high energy density design, eFlex maximizes the energy stored per unit of space, drastically reducing land and construction costs. 8kWh energy storage power station.
