

Solar energy for homes tonga

Overview

Tonga is making tangible progress toward its renewable energy targets with the rollout of solar-powered mini-grid systems across its outer islands, in a bold move to reduce its dependence on expensive diesel imports and improve electricity access for remote communities. We're committed to increasing solar energy in Tonga. Whether you manage a school, church, government building, NGO project, or business, we design solar systems that suit your building and your budget. Currently, around 91 per. We have formed a Swiss, German and New Zealand team with Tongan family roots and experience in both Tongan government and investment activities to bundle our know how, energy and funds to promote and operate a solar energy production in the private sector, focusing on small-medium enterprises and. The Market Development Facility (MDF) is a multi-country initiative that promotes sustainable economic development, through higher incomes for women and men, in our partner countries. We support partners from business and government to identify and grow commercial opportunities that are profitable. In the presence of Their Majesties King Tupou VI & Queen Nanasipau'u, The King & Queen of The Kingdom of Tonga, Tonga's new 6MW solar power plant was officially launched today at Fualu, Tongatapu by Prime Minister of the Kingdom of Tonga, Hon. Implemented by New Zealand company.
