

# The latest news on solar container battery companies in Rotterdam the Netherlands

## Overview

Eneco and EP NL have announced a joint investment in a 50 MW / 200 MWh battery storage project at the Enecogen power plant in the port of Rotterdam. Witness Europe's largest port, Rotterdam, deploy massive 20MWh Tesla-powered BESS containers for shore power. This Port BESS Container Optimized for mid-size factories, desert solar farms, and hybrid grid substations. This Port BESS Container Electrification initiative cuts 11,000 diesel hours & 8,400 tons of CO<sub>2</sub> yearly (like removing 1,800 trucks!), saves €2. Operational data reveals 85% less diesel use during crane ops, peak shaving that avoids €500k/year in grid fees, and rock-solid reliability—thanks to <100ms response times. Inland shipping has been the backbone of the port of Rotterdam and the European economy for decades. It is an efficient and relatively clean modality. The battery will have a connection capacity of 50 MW and an energy storage capacity of 200 MWh, enabling it to supply electricity for four hours.
